

22SC1209 - IOT WORKSHOP

TITLE OF THE PROJECT : AugCar

Batch Members

1. Register No.: 2210030003 Name of the Student: T Manas Chakravarty
2. Register No.: 2210030017 Name of the Student: V Charan Srihaas
3. Register No.: 2210030150 Name of the Student: C Dhruva
4. Register No.: 2210030128 Name of the Student: G Sohan

Abstract:

We are contemplating on building a multiwork remote car which can do work like lifting/pick or place the things around,It is powered by solar and 5V battery.

As the name suggest we are planning on making a app which we can use for controlling the car.

AugCar : Augmented Handy Car!

Components Used: _ _ Arduino uno,servo motors,HC-05 bluetooth module
_ _ L293N motor drive module,DC motor and wheels,Arduino Nano,
_ _ Jumper cables,LEDs,9v batterie's,MDF board,screws,type c cables.
